#### Please be sure to read it

#### How to read this manual

- In the instruction manual (this document), explanations using the buttons on the remote control are mainly provided.
- •The screen illustrations used in the instruction manual (this document) and the actual screens Your screen may vary.
- •The illustrations in the instruction manual (this document) are for the DESR-7100. I'm using

#### This unit is for use in Japan only.

When playing back a DVD video on this unit and recording it on another device, the recording operation may stop or recording may be restricted. This is due to the copy protection applied to DVD videos. by altering or removing this copy protection

Recording DVD videos, even for personal use, is prohibited by law.

Access control is applied to this machine. Non-dedicated software, excluding DVD videos and music CDs, and copies of dedicated software cannot be used on this unit under this access control. The law prohibits the transfer, delivery, display, export, import, or transmission of this access control override device or program, or of any machine that incorporates this access control override device.

The operating method of this unit may differ from that of "PlayStation" or "PlayStation 2".

## Handling of this machine

#### About starting and shutting down this unit In

order to optimize the entire system, this unit is designed to operate after pressing the ^/1 (power) switch on the main unit when the power is turned on and off until it actually starts up. It takes a while until the power is actually turned off. Never disconnect the power cord when the =/1 (power) indicator on the main unit is lit or flashing green. If you remove the power supply while the =/1 (power) lamp on the main unit is lit or blinking, the built-in hard disk of the unit will be damaged and the unit will become unusable.

may become

#### Handling the hard disk Since the hard

disk has a high recording density, you can enjoy long-time recording and quick cue playback. On the other hand, it is necessary to avoid using it near dust, shock, vibration, and magnetized objects. The hard disk has a built-in safety mechanism to protect recorded image data, but please note the following points so as not to lose important data.

•Do not give a shock to the machine.

•Do not use in a vibrating or unstable location.

•Do not move the unit while the power plug is plugged into the outlet.

- •When the power is on, remove the power plug from the outlet. not.
- Do not use in places with rapid temperature changes (changes of 10°C or more per hour).
   do not do.
- Do not replace or expand the hard disk by yourself, as this may cause failure.

We cannot compensate for recorded contents under any circumstances, including when the equipment fails for some reason. Use the hard disk as a temporary storage location until important image data is edited and dubbed to DVD.

#### Precautions for afterimage phenomenon

(image burn-in) Do not leave a still image such as a disc menu or the menu screen of this unit displayed on the TV screen for a long time. It may cause an afterimage phenomenon on the screen. Note that afterimages are particularly likely to occur on plasma display panel TVs or LCD TVs.

#### Handling of this unit •Use this

- unit near an outlet. If a problem occurs while using this unit, immediately disconnect the plug from the outlet and turn off the power.
- Do not place in places with high humidity, dust, oily smoke, steam, or in direct sunlight. It may cause fire or electric shock. Especially, never use it near a bathroom or a humidifier.
- •If cigarette smoke or fumigation pesticides get inside the unit, it may malfunction. It will be the cause.

#### Condensation

Condensation is a phenomenon in which moisture in the air adheres to a metal plate, etc., and forms water droplets. Condensation may form on the surface or inside of the unit when the unit is suddenly brought from a cold place to a warm place, or in a room that has just been heated, such as on a winter morning. If dew condensation occurs, do not turn on the power until the dew condensation disappears. Continuing to use the product as it is may cause a malfunction.

#### To clean the cabinet and

panel surfaces, wipe them with a soft cloth moistened with a little neutral detergent. Do not use thinner, benzine, alcohol, etc., as they will damage the surface.

#### Stereo Etiquette When listening to

music on a stereo, please listen at a volume that will not disturb your neighbors. Especially at night, even a small soung pass through the surroundings. Please take care of by closing the windows, using headphones, etc., to pleasant living environment. This mark is for sound

It is a symbol mark.

#### Cleaning discs Do not use

commercially available lens cleaning discs with this camera. Failure to do so may result in malfunction.

#### About recording and dubbing

#### In the case of important recording.

be sure to make a trial recording in advance and make sure that the recording is performed normally Please Confirm.

#### We cannot compensate for the recorded content.

If recording/editing is not possible for any reason, including disk defects, failures, repairs, replacements, and other external factors, recording/editing will not be possible. In any case, such as when the collected items are damaged or disappeared However, we are not responsible for any compensation for recorded content or any damages that accompany it. In rare cases, images saved on the hard disk may be damaged due to unexpected problems during software update.

and

#### Restrictions on recording and dubbing Do not

use this unit to record video that includes a "recording prohibited" copy control signal. cannot be drawn. Also, a copy of "can be recorded only once" Images that contain control signals cannot be recorded with this unit. However, dubbing to DVD is not possible. in the middle of the program contains a copy control signal that allows one-time recording, the The blue screen will be recorded to the DVD from here.

Copy control signal har Recorded on disc	d disk type	Dubbing from hard disk to DVD
Free recording Terrestrial broadcasting, etc.	0	0
Recordable only once BS digital broadcasting, etc.	0	×
billing prohibited D vice	deo, etc.	××

Most terrestrial, BS, and 110-degree CS digital broadcast programs contain copy control signals. It is not possible to dub or move programs that include copy control signals such as "Record only once" or "Recording prohibited" to a DVD.

With "PSX", programs that can be recorded only once can only be recorded on the hard disk.

#### About copyright

- •According to the copyright law, you cannot use what you have recorded with this unit for purposes other than personal enjoyment without permission from the copyright holder.
- •This product incorporates copyright protection technology and is protected by US patents and other intellectual property rights owned by Macrovision Corporation and other copyright owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Disassembly or modification is also prohibited.
- •This unit is equipped with a copy protection function (copy guard), and cannot record software or broadcast programs for which a copy restriction signal has been recorded by the copyright holder.
- •This unit is equipped with a function that restricts the playback of unauthorized discs (pirated copies, etc.), and cannot play such discs.
- •The program of the tuner connected to the external input of this unit may have a recording prevention function (copy guard). Note that some programs cannot be recorded in this case.
- •This unit has a mode that allows you to select the screen size according to the screen of the connected TV. Depending on the setting items, the appearance of the original image may differ. Please keep this in mind when choosing the settings for this unit. If you use this unit for commercial purposes or for the purpose of viewing by the public at a coffee shop, hotel, etc., using the screen display function, you may violate the copyrights protected by the Copyright Act. Please be aware that there is a risk of infringing on rights.

The price of DESR-7100/5100 includes "private recording compensation". Compensation is stipulated by the Copyright Act to be paid to the right holder for protection of rights. Inquiries about private recording compensation ÿÿ107-0052

#### About the game

#### Precautions when using game discs ÿUsing a

- "PlayStation 2" standard software disc or a "PlayStation" standard software disc on other models may damage the device or damage the ears, eyes, or other parts of the body. Please do not do this as it may affect you.
- When inserting a "PlayStation 2" standard software disc or a "PlayStation" standard software disc into this unit, be sure to insert the disc into the disc slot with the label side (the side on which titles, etc. are printed) face up.

tion with the notation of

 ÿ "PlayStation 2" standard software, "PlayStation "

 The standard software disk is

Only compatible with

#### Discs purchased overseas This unit

supports the NTSC color television system. purchase abroad entered <u>NTSC U/C</u> NTSC C and tab@PAL "PlayStation 2" standard CD-ROM and DVD-ROM with notes, A "PlayStation" standard CD-ROM can not be used with this unit .

#### About "PSX" Certification

#### "PSX"ÿÿ"DNAS"(Dynamic Network Authentication

System), Sony Computer Entertainment Inc.'s proprietary software that enables copyright and security protection I am using an authentication system. Deactivator for this system or transfer, hand over, exhibit, export the program, Importing or transmitting is prohibited by law.

vinegar. In addition, content compatible with "DNAS" can be used on other "PSX" or It cannot be used on "PlayStation 2".

## **About discs**

#### Precautions when handling discs • Do not

touch the playback or recording surface when holding the disc.

- ÿ Do not place in places with high temperature such as direct sunlight, or places with high humidity.
- · Store discs in their cases.
- Always keep discs clean. Fingerprints and dust on the disc can cause distorted images and poor sound quality.
- When wiping a disc, use a soft cloth to gently wipe it from the center of the disc to the outside. If it is very dirty, wipe it with a soft cloth slightly moistened with water, and then wipe off the water with a dry cloth.

- ÿ Do not use benzine, record cleaners, anti-static agents, etc.Please do not use it as it may damage the risk.
- **ÿ** Do not write on the disc with a pencil or ballpoint pen. please.
- ÿ Using the following discs may cause the unit to malfunction. may occur.
  - Discs with paper or stickers
  - pasted Discs with adhesive sticking out or traces such as cellophane tape or rental disc labels
  - specially shaped discs;

#### When adjusting the

**volume, the** disc is much quieter than the record. If you adjust the volume while listening to the noise of the part where no sound is present, such as when playing a record, an unexpectedly loud sound may be produced, which may damage the speakers. Always turn down the volume before starting playback.

#### About area codes (region codes)

The region number is indicated on the DVD-Video package. If the area code contains "ALL" or "2", the possible to live.

#### Notes on discs

•Only playback is supported for 8 cm discs.

- •Please purchase a disc that has "for video" or "for video" written on the package .
- •Data recorded on a computer that cannot be read by this unit may be deleted.
- Discs dubbed in the DVD-RW VR mode of this unit are It cannot be played on a normal DVD player. Playable only on DVD-RW (VR mode) compatible players.
- Discs dubbed with DVD+RW on this unit cannot be played on a normal DVD player. It can only be played on DVD+RW compatible players.
- •DVD-RW/DVD-R or CD-R discs recorded by other DVD devices may not be playable due to scratches, dirt, recording conditions, recording equipment, CD/DVD software characteristics, etc. Also, discs that have not been properly finalized to record end information at the end of all recordings cannot be played. For details, please read the instruction manual of the recording device.
- •This product is designed to play music discs that conform to the compact disc (CD) standard . Recently, some record companies are selling music discs equipped with technology for copyright protection.

Playback or capture may not be possible.

•Never move this unit with a disc inserted.

If you move the unit while the A (eject) lamp is lit, the disc may be scratched. Be sure to remove the disc before changing the orientation of the unit (vertical installation or horizontal installation).

#### Notes on playing DVD discs•CPRM\*

compatible discs created on other devices cannot be played. I can't

- •For DVD videos, the playback status may be determined according to the intention of the software creator. Since this unit plays disc contents as intended by the software creator, some functions may not work as intended. Be sure to read the operating instructions supplied with the disc you are playing.
- \* CPRM (Content Protection for Recordable Media) This is a technology that encrypts video materials to protect copyrights.

## Notes on handling "Memory Stick"

- Put the "Memory Stick" in the included storage case when carrying or storing it.
- ÿ Do not touch the terminals of the "Memory Stick" or touch metal objects. please don't
- ÿ Do not give a strong impact or bend it.
- ÿ Do not drop the product.
- $\ddot{\boldsymbol{y}}$  Do not disassemble or modify the product.
- ÿ Do not get it wet.
- $\ddot{\mathbf{y}}$  Do not store in a hot place such as in a hot car or under the scorching sun. please don't
- •Do not store in direct sunlight.
- **ÿ** Do not store in humid places or places with corrosive substances.

# Transition from analog broadcasting to digital broadcasting

#### **Transition Schedule to Digital Broadcasting**

Digital terrestrial broadcasting began in December 2003 in part of the three major wide-areas of Kanto, Chukyo, and Kinki, and is scheduled to begin in other areas by the end of 2006. The reception area in the relevant area is initially limited, but it is planned to be gradually expanded. The national policy is to end terrestrial analog broadcasting in July 2011 and BS analog broadcasting by 2011.

#### Recording digital broadcasts with this

unit You can record digital broadcasts by connecting this unit to an optional digital tuner or a TV with a built-in digital tuner. Depending on the program, copy control signals may prevent recording or dubbing of recorded titles.

## Prepare

Preparation 1 Check the accessories

Prepare

After opening the box, check that all accessories are included.

(1 copy each)

## Step 2 Connect the antenna

See page 26 for caution

How to remove the cover on the bottom of the machine

Pu 1 once, then pull 2 forward.

## How to install when connecting

Install and connect the unit as shown in the diagram below only when making connections. please.

Connecting with the front side down may damage the front side, so be sure to

place the unit on a soft cloth and connect it with the top side down.

After completing the connection, refer to "Preparation 6 Installation" (page 19) to install the unit correctly.

Be sure to connect the power cord after completing all connections.

please.

#### **Distribution of BS antenna**

#### When supplying power from this unit to the BS antenna, connect

the terminal labeled POWER PASS on the distributor and the BS antenna on this unit.

Connect the IF input terminal.

When connecting as above, set "BS Antenna Power" to "On" in "Preparation 7: Easy Setup" (page 20).

#### When supplying power to the BS antenna on the TV side, connect the

terminal labeled POWER PASS on the distributor and the terminal on the TV. Connect the BS IF input terminal.

When connecting as above, set "BS Antenna Power" to "OFF" in "Preparation 7: Easy Setup" (page 20).

The optional accessories described in this manual are current as of June 2004. Please accept our apologies if the product is out of stock or production is completed.

## When the TV reception is poor

If TV programs received by this unit are not displayed or the screen is distorted, use a commercially available antenna instead of an antenna splitter. connect any cable other than the included coaxial cable to the BS IF Connect the antenna to the VHF/UHF terminal using a booster. please.

Connect the included coaxial cable to the BS IF input terminal. Never

input terminal. Since the BS IF input terminal supplies power for the BS converter , failure to connect the dedicated cable may result in a short circuit, resulting in an accident such as a fire.

## Step 4 Prepare the remote control

See page 26 for caution

put batteries in the remote control

Open the lid on the back of the remote control and insert the included batteries. Be sure to insert the battery from the # pole side as shown in the figure below.

#### Setting to operate the TV of each company

You can operate the TV channel, volume, and power with the remote control of this unit. to come. At the time of purchase, you can operate a Sony TV. It is set.

Operate while pressing the TV power button.

Enter the two-digit manufacturer registration number of the TV you want to and press.

Toshiba: While pressing the TV power buttoo

Input example

Pioneer: While pressing the TV power button ÿ

3

ÿÿ If there are two or more manufacturer numbers, try them in order and the TV will not operate. Please select a number that you can

ÿ2 The input selector button cannot be used.

## Step 5 Connect the power cord

Be sure to connect the power cord after completing all connections.

After connecting the power cord to the unit, plug the power cord into an Prepare outlet.

When the power cord is connected, the cooling fan and hard disk of this unit will operate.

Wait until the HDD ACCESS lamp turns off, then turn on the power.

Check if the power turns on with the power button on the remote control.

put in.

The "PSX" logo will appear on the screen, and after a while the simple setup screen will appear. See "Preparation 7: Easy Setup" (page 20).

#### If the remote control's power button does not turn on the

**power**, check that the remote control mode switch is set to "1". If the remote control mode of this unit and the number of the remote control mode switch on the remote control are different, you cannot operate this unit with the remote control.

you can't.

The remote control mode of this unit is set to "1" at the time of purchase, so set the remote control mode switch on the remote control to "1" as well. is needed.

If you want to operate multiple "PSX" with one remote control, set the remote control mode of the main unit and the remote control to a different number from the other "PSX". please.

For details on the setting method, see "Changing the remote control mode" (page 110).

## **Preparation 6 Install**

## **Prohibited Installation Method**

When installing the unit, install it in an orientation other than the correct installation method. please don't

If installed incorrectly, the disc may become unreadable or malfunction.

may be the cause of

- Installed on its side

- Installed with the top side down

- Place a TV, etc. on top of the unit.

- Front side down

## **Correct installation**

When installing the unit, place it on a flat surface as shown in the illustration below.

please give

me. Horizontal orientation

When placed vertically

#### Do not subject this unit to vibration or shock. The hard disk

should be protected from shock, vibration and dust.

It has built-in safety mechanisms to prevent damage, but improper use may result in loss of recorded data or malfunction.

Please pay particular attention to the following

- points.•Do not move the unit or change its orientation while the power cord is connected. Even if the power cord is connected and the power lamp lights red, the hard disk may still be operating.
- •Do not move or move the product immediately after connecting/disconnecting the power cord or turning the power on/off. To protect the hard disk, wait about 20 seconds after turning off the power.

•Do not apply vibration or impact.

•Do not use in a vibrating or unstable location.

•Do not unplug the power cord during recording or playback.

 Do not pull the cable of the dedicated analog controller, etc. strongly. When placed vertically, the machine may topple over. Parents, please be careful with your children. Prepare

**Do not install in the following locations:** - Locations exposed to direct sunlight or high humidity - Extremely cold locations - Locations near tuners, TVs, or VCRs (using

together with tuners, TVs, or VCRs) When using an indoor antenna, noise may occur or the image may be distorted, so we recommend using an outdoor antenna.)

#### Prepare

•On a carpet, etc.

•A place where water splashes

Dusty place

•An unstable place

Also, do not do the following as it may cause malfunction. please

•Place a container filled with water, such as a vase, on the unit.

•Put hot objects such as kettles on it

•Inclining the unit

•Block the ventilation holes by covering the unit with a cloth, etc.

The ventilation holes of this unit are located on the side of the unit.

block the ventilation holes

When changing the installation location, do not move the unit with a disc inserted. Doing so may damage the disc.

#### **Preparation 7 Performing simple settings**

When you turn on the power in "Preparation 5 Connecting the power cord" (page 18), Easy Setup is displayed. Perform basic settings for using this machine.

Follow the on-screen instructions to make the

settings. You can set the following items in Easy Settings.

Easy setting flow

#### Setting 1: BS antenna power

This is the setting for supplying power from this unit to the BS antenna (95 page).

#### Setting 2: Time setting

You can set the date (year/month/day) and time (page 108).

Set the region where the machine is used. According to the set area,

Automatically adjust the channels to be displayed in the program guide. broadcast There is no need to change the settings manually unless there is a change due to station circumstances. For more information on regions, see Guide Channel View" (page 136).

If you set the area code,

The time is also set automatically.

The acquisition time of the program information differs depending on the set area code. Register an area code that is different from the area you live in, or use If you manually change the acquisition time, you will not be able to acquire program information. Therefore, unless there is a notice from the broadcasting station, we will never change it. please don't

## Setting 6: Optical digital output setting

Make settings for connecting to other audio equipment using the optical digital terminal (page 107). If you set "Optical Digital Output" to " On", proceed to Dolby Digital settings (page 101) and DTS settings (page 101).

Check the used space of the hard disk.

If you do not play hard disk compatible games on this unit, See "Changing Disk Space" on page 107 to Select the setting to set the system area to 0 GB (gigabytes). If left as is, the maximum recordable time will be shortened.

Use the 40GB setting when there is a possibility of playing games. when.

Prepare

\* The program name will not be displayed unless the program information of the program table is acquired.

#### To turn off the power,

press the =/1 (power) switch on the main unit. After

pressing the =/1 (power) switch, it takes several seconds for the unit to turn off. Do not press the =/1 (power) switch continuously as this may cause malfunction .

## get ready for the game

Before enjoying games with this unit, prepare the following accessories (sold separately).

#### "PSX" dedicated analog controller (DESR-10)

# "PlayStation 2" dedicated memory card (8MB) or memory card (this unit supports both cards.)

This unit does not support "PocketStation".

Memory card for PlayStation 2 (8MB)

How to insert MEMORY CARD1 or Insert it into MEMORY CARD2.

# 

How to

Prepare

connect Connect to controller 1 on the rear of the unit. Controller 2 is only used for gaming. The analog controller connected to Controller 2 cannot be used for operations other than games on this unit.

#### please note

When using the controller for operations other than games, connect to controller 1.

Preparing for the game (Continued)

## "PlayStation 2" dedicated memory card About (8MB)

You can save or load game data for "PlayStation 2" format software.

To check, copy, or delete game data, use the game's [Memory Card Utility] (page 88).

Approximately 8MB of game data can be saved on a single "PlayStation 2" dedicated memory card.

However, only the amount of space used for file management information is available. capacity may be reduced.

#### About memory cards

Save or save game data from "PlayStation" standard software. can be loaded.

Use the game's [Memory Card Utility] to check, copy, or delete

game data (page 86). 120KB (15 blocks) of game data per memory card

You can save your game data.

Save the game data of "PlayStation 2" standard software as a memo. cannot be copied to a memory card.

#### About saving game data

Even if you try to save game data that requires more space than the "PlayStation 2" dedicated memory card (8MB) or the free space of the memory card, you will not be able to save. Before playing the game, check the space required to save data and the free space on the card. For information on the space required to save data, refer to the instruction manual that comes with the game software. Connect an external input device

#### back of the unit

Step3

Use Mm to select the photo you want to view and press .

For details, see "Playing back photos" (page 80).

This unit is compatible with Sony digital cameras. connected to the unit. See below for the types of Sony digital cameras that can be connected. Please check the homepage.

http://www.sony.co.jp/SonyDrive/

Insert the disc into the disc slot with the label side (not the playback side) facing up. Insert it straight along the direction of the arrow in the diagram above. please give me

#### When inserting an 8cm disc, this

unit can play it without using an 8cm disc adapter. Align the disc with the center of the disc insertion slot and insert it straight. please give me.

Attaching an adapter to an 8 cm disc and inserting it into this unit may cause malfunction. Also, it may cause the unit to malfunction.

please put it in.

Check the direction of ÿ on the "Memory Stick",

Insert the MEMORY STICK firmly into the slot be.

When you push it in, the access lamp lights up. Disappear.

When using a "Memory Stick Duo", attach the "Memory Stick Duo" adapter to the "Memory Stick Duo" before inserting it into the MEMORY STICK insertion slot of your camcorder. please put it in

access lamp

Slowly push the "Memory Stick" Put it in and take it out.

The "Memory Stick" or "Memory Stick " insertion slot may be damaged in the following cases.

pull out the do

- •Forcibly pull out the "Memory Stick".
- Insert any object other than a "Memory Stick" into the "Memory Stick" insertion slot.

•Forcibly insert the "Memory Stick" upside down.

## Notes on "Preparation"

#### Notes on "Preparation 2 : Connect the Antenna"

•Component video input (Y/PB/PR) for high-definition is not supported.

If you connect this unit to a TV that supports progressive (525p) format and output progressively, if problems such as image distortion occur, we recommend viewing in regular TV (interlaced) format. To do. For details on the progressive method, see "Setting progressive output" (page 101).

For information on compatibility between this unit and your TV, please contact our customer service center.

- This unit can only record video output with 525i (480i) standard TV broadcast signals. High-definition signals cannot be recorded.
- •This unit cannot be connected to a BS WOWOW broadcast decoder.
- To prevent image distortion, do not place a TV directly on top of this unit.

 Keep the antenna wire as short as possible and keep it away from the unit. In particular, feeder lines are more susceptible to noise than coaxial cables, so keep them as far away from the unit as possible. please.

- In the following cases, BS cannot be received or reception conditions are poor.
   This is not a malfunction.
  - The area where you live or where the broadcasting satellite company that transmits BS is located
     When the area is experiencing bad weather such as thunderstorms or strong winds
  - When the BS antenna is covered with snow
  - When the direction of the antenna changes due to strong wind, etc. (Adjust the direction of the BS antenna .)

Notes on "Preparation 4 Preparing the remote control"

 When using the remote control, do not expose the remote control sensor to direct sunlight or strong light from lighting fixtures. You may not be able to operate with the remote control.

Precautions for "Configuring the remote control of this unit to operate

TVs of other companies "•Depending on the TV, operation may not be possible even if the manufacturer's registration number is matched, or some

buttons may not be available.

- •If you enter a new manufacturer registration number, the The manufacturer's registration number will disappear.
- When the batteries in the remote control are replaced, the manufacturer's registration number may automatically return to the default setting. In that case, enter the manufacturer registration number again.

#### Notes on "Connecting a Digital Camera"

- Digital cameras made by other companies and storage media via USB cannot be used with this unit. is not supported.

Notes on " Connecting audio equipment that supports optical digital input "

- Audio recorded in Dolby Digital\* or DTS format discs cannot be digitally recorded as-is on an MD or DAT deck .
- •Some "PlayStation 2" format software does not support audio output from the DIGITAL OUT (OPTICAL) terminal. no sound is output. To enjoy the sound of such software, you need to connect this unit and your audio equipment with the supplied audio cord.
- \* Manufactured under license from Dolby Laboratories . Dolby, Dolby, Dolby Digital and the Double D symbol are trademarks of Dolby Laboratories.

Notes on "Inserting a disc or "Memory Stick""

• When removing the "Memory Stick", do not flick it sideways with your finger. If it gets into your eyes, it may cause injury. I have.

## Program Guide

A program guide (G-guide) is a list of programs displayed on the TV screen, such as those published in the TV section of newspapers and magazines. You can make recording reservations by simply selecting the program you want to watch from the program guide.

At the time of purchase, the unit does not contain the program data for using the program guide, so the program guide cannot be used. Refer to " Four Points for Properly Displaying the Program Guide " and receive the program data for the program guide correctly before using the program guide.

# Four points for displaying the program guide correctly

## Point1

Program data can be received only when the power of this unit is "OFF" or when playing a game.

#### Point2

It takes about half a day to a day to receive program data. Program data is sent several times a day by a specific broadcasting station (host station). Depending on the time of day, it may take half a day to a day to receive it. So please be careful.

#### Point3

Make sure that the antenna wire and power cord are connected correctly. The program data in the program guide is sent from the host station using TV radio waves. Please note that program data cannot be received unless the antenna wire and power cord are connected. Also, the program guide may not be available depending on the radio wave conditions or ghost occurrences.

#### Point4

Check if "Easy setting" is set correctly. If "Time setting" and "Area code setting" in Easy setting are not set correctly, you cannot receive the program guide. For details, refer to "Preparation 7 Easy Setup" (page 20). How to display the program guide

Step1

guide button or program guide button on the remote control. increase.

#### To exit the program guide,

press while viewing the program (wide .

You can also exit by pressing the G guide button on the remote control.

Types of program guide screens

This unit has four types of program listings and topics.

## Notes on "Introduction to PSX"

## Notes on "program guide guide"

- Program guide data is sent several times a day from a specific broadcasting station. For this
  reason, it may take about a day from the completion of the simple settings (page 20) until the
  reception of the program guide is complete. The program guide will be blank while receiving/
  updating the program guide.
- •You may not be able to receive or update program guides depending on your area, radio wave conditions, weather conditions, etc. In that case, the program table will be blank.
- Program contents and broadcast times may change due to the circumstances of the broadcasting station. Reservations made on this unit cannot be changed due to the circumstances of the broadcasting station.
- •If you move, be sure to perform "Easy setup" again to display the optimum program guide even if you receive the same broadcast station.

when.

•In the program guide, you can reserve programs up to 8 days ahead.

•Program information cannot be obtained while recording.

Notes on "Recording in Program Guide"

## •16:9 images are recorded at 4:3.

- It is not possible to change the recording mode during recording or while recording is paused.
   you can't.
- If you unplug the power cord while recording, the program being recorded will be deleted.
   may be

set •It is not possible to set duplicate reservations for the same time.

•Up to 30 reservations can be made on this machine.

 You cannot change the channel of this unit during recording. If you use the supplied distributor to connect the antenna to the TV and this unit, you can switch TV channels even while recording. For the connection method, see page 13.

•Only extension settings can be changed while scheduled recording is in progress.

Notes on "Record the TV program you're watching"

### 16:9 images are recorded at 4:3.

 To record digital satellite broadcasts from the external input terminal of this unit, turn on the power of the digital tuner and select the program you want to record. Do not turn off the tuner or switch channels until the recording is finished.

•This unit can record continuously for up to 6 hours.

Recording will stop automatically 6 hours after you start recording.

•Even if you turn off the power with the remote control or the power button of this unit during recording, Recording does not stop.

·You cannot switch channels while recording.

If the start time of the scheduled recording has passed during recording, the recording will stop.
 The next scheduled recording will not start until

Notes on "Reserving recording in the program guide"

•During dubbing to DVD, timer recording cannot be performed. Before dubbing, check the schedule list to see if recording schedule will not start during dubbing.

 If the end time of a recording reservation is the same as the start time of another recording reservation, it will be recorded only several tens of seconds before the end time. Precautions for "Reserving recording by specifying the date and time"

If the time setting is not correct, recording will be scheduled at the desired date and time.
 plug.

•You can reserve programs up to one month ahead with this unit.

•During dubbing to DVD, timer recording cannot be performed. Before dubbing, check the schedule list to see if recording schedule will not start during dubbing.

•If the reservation end time and the next reservation start time are the same, the end of the previously recorded program (A) will not be recorded.

Precautions when listening to the audio of recorded video of bilingual

broadcasts through the optical digital output

When "Dolby Digital" in [DVD Settings] is set to "On", the following

I cannot switch the audio of the video.

•Recorded video recorded in a recording mode other than HQ

•Dubbed a video recorded in a recording mode other than HQ DVD

Precautions when recording dual audio programs ( digital CS broadcast programs, etc.) from the external input (LINE)

If "External input audio setting" is set to "Stereo", the audio cannot be switched during playback.

<sup>•&</sup>quot;Recording", "Pause recording", and "Stop recording" on the operation panel or remote control works only when watching TV shows. It does not work when viewing videos, music, photos, etc., or when the unit is turned off.

# Precautions when dubbing recorded video of bilingual broadcasts

Recorded video in which both main and sub audio are recorded, Dubbing is possible only in VR mode of DVD-RW.

See the table below for details.

## Notes on "Enjoying Videos"

## Notes on "Playing video and DVD"

- The playback settings included in the disc have priority over the settings on the setting screen of this unit, and even if they are set, the function may not work.
- •When playing back DVD-R/-RW, only the interlace format is used. video output.

## Notes on DVD DTS audio playback • DTS

audio signals are output from the digital audio output terminal. Make sure that "Optical digital output" in the main unit 's settings and Video "DTS" in the DVD settings are set to "On" .

•DTS audio signals can be output from the analog audio output.

you can't.

## Notes on "Playing from the last stopped scene"•For

DVDs, playback can be resumed from the last stopped scene only in the following cases. -During playback, display the cross menu with

SELECT or home button.

when

- When no other images, music, photos, etc. are being played

# Notes on "Fast-forwarding with sound (1.3x fast-forward playback) "

## cannot be

 Audio is not output from the optical digital output of this unit even if Dolby Digital is set to "On" when using fast playback of video recorded in a recording mode other than HQ or dubbed DVD. can't force Audio is output from the optical digital output of this unit regardless of the Dolby Digital setting for video recorded in HQ recording mode.

## Notes on "Edit"

## Notes on "Pause the video for editing"•The video displayed when the video is paused is set to be displayed at approximately 0.5 second intervals. Some scenes that should have been skipped may be replayed.

## Notes on "Optimize video"

•When optimizing the image of a program that includes a copy control signal with "One-time recordable", the scene that includes the copy control signal is recorded in blue, and the audio is not recorded.

- •When optimizing images containing copy control signals, Titles before optimization cannot be deleted.
- •Chapter information set during editing is not reflected in the optimized video.
- During optimization, when playing ATRAC3 format music, Sound skipping may occur when inserting or removing a CD, "Memory Stick" or digital camera.
- If there are many recorded titles (more than 300), sound skipping may occur when ATRAC3 format music is played during optimization.

•During optimization, the following operations and functions do not work.

- Start recording reservation - Import photos - Import music - Dubbing -Change settings

- If you play video while optimizing, the image or sound being played may be interrupted. In such cases, the optimization will still succeed.
- After optimization, the top image of the optimized title will be registered as a thumbnail.

## Notes on "Dubbing to DVD"

- Depending on the DVD device, it may not be possible to play the disc even if it is finalized correctly. may not work.
- •You can finalize a disc recorded on another DVD device with this unit. you can't.

•During dubbing, recording reservations and recording cannot be performed.

- •When dubbing in Video mode of DVD-RW, the result of editing is reflected.
- •When the hard disk space is low, the DVD menu cannot be created , or dubbing cannot be performed when optimization is required. may not be.
- •Chapter information set during editing is optimized during dubbing It is not reflected in the video that has been changed.
- Most programs of terrestrial, BS, and 110-degree CS digital broadcasting contain copy control signals. It is not possible to dub or move programs that include copy control signals such as "Record only once" or " Recording prohibited" to a DVD. With "PSX," programs that can be recorded only once can only be recorded on the hard disk.
- •VR mode with all titles deleted on other devices, +VR mode Additional data cannot be added to a hard disk.

## Notes on "Enjoying Music"

Notes on "Playing Music"

- •CDs created on a computer may not play.
- •Some CDs may not be playable on this unit.
- ATRAC3 format audio captured on the hard disk cannot be output from the optical digital output terminal of this unit.
- •The HD layer of SACD cannot be played.

#### Precautions when playing DTS audio

from a **CD** When playing a CD recorded with DTS, extremely loud noise will be output from the analog output. When connecting the analog outputs of this unit to an amplifier, extreme care must be taken to avoid damaging your system. To enjoy DTS Digital SurroundTM playback, you must connect an external 5.1-channel

DTS Digital SurroundTM decoder to the digital output of this unit. If you play DTS audio from a CD while connecting to an audio device that does not have a built-in DTS decoder, you will hear noise from the digital audio output.

Notes on "Controlling the song that is playing"

•If you continue to look directly at the Visualizer in a dark room, it may cause symptoms such as epilepsy. Brighten the room or switch the Visualizer to a still image.

Notes on "Importing songs from a CD to this unit"

- Importing songs from a CD that does not conform to the CD standard into this unit is you can't.
- The following CDs cannot be imported to the hard disk of this unit. not.
  - ÿ Label Gate CD ÿ DTS-CD
- •When importing tracks from a CD, press the Z button or  $^{1}$  (power button). (source) button.
- Music discs with copyright protection technology that does not conform to the CD standard may not be imported.

## Precautions when playing MP3 files saved on a CD-R on this unit

MP3 files that can be played on this unit must be saved using the following methods. CD-R only. MP3 files saved in other ways cannot be played.

Creating and saving folders and files

Create a folder directly under the CD-R (root) and save the MP3 files in that folder .

CD-R 1st layer (immediately below CD-R) 2nd layer

Precautions when creating and saving folders and files

- •MP3 files written directly under the CD-R (root) are not recognized by this unit (1).
- Do not create folders within folders (2).

- Do not create more than 40 folders on one CD-R.
- Save more than 100 MP3 files in one folder please don't

Precautions when naming folders and files

- •Set the file name within 64 characters.
- •Do not use single-byte characters such as "<", ">", "|", """, "/", "\", "\*", ":", "?", and "\". please don't
- File names and folder names may not be displayed correctly if they do not conform to ISO9660 Level 1, Level 2, Extended Format (Joliet).
- When naming the file, add the extension ".mp3" to the end of the file.

77

Mi

logic

- •If you add the extension ".mp3" to a file other than MP3 format, the file may be played back, which may cause noise or malfunction.
- •Track names in MP3 files on a CD-R are displayed with reference to ID3 tag information if an ID3 tag exists, but there is a limit to the number of characters.
- •The track names of MP3 files imported to the HDD are display the file name, but the number of characters is limited.

•Be sure to use a CD-R.

## •Be sure to write with "Disc at once".

- Do not write to a CD-R that has already been written.
- •Depending on the state of the disc, it may not be possible to play it.

•Discs recorded in multisession cannot be played.

 $_{yu}^{Mi}$  •CD-RW is not supported.

•Packet light is not supported.

## logic<sub>Formats</sub> supported by this unit

#### please note

•Dial-up and ISDN connections cannot be used.

•Depending on the service provided by the Internet service provider, a PC may be required when setting the connection environment or network. Check before connecting and setting the network.

•There are two types of Ethernet cables: straight cables and cross cables . Connect this unit using a straight cable. In that case, use a shield type cable to suppress the emission of unnecessary radio waves.

\* Do not connect a telephone line to the NETWORK terminal. It will be the cause of the failure. NETWORK When connecting an Ethernet cable to the terminal, remove the terminal seal before connecting.

#### **Preparation 2 Setting the network**

When the network setting screen is displayed, follow the instructions on the screen. Please set.

#### If you select "Do not use"

Switches to the screen for confirming the IP address setting method. STEP2 "IP Address Confirmation" on page 117.

#### If you select "Use"

The PPPoE setting screen is displayed as below.

Items to be set

•Enter user ID and password: Enter the user ID and password for using PPPoE. The user ID and password entered here are the same as the user ID and password for connecting to the Internet. For more information about User ID and Password, please contact your provider.

#### STEP 1 "Confirm PPPoE"

Select "Use" when using PPPoE with this unit to connect to the Internet.

Select "Do not use" when connecting to the network without using

OtherPoE, or when using the PPPoE function of the router instead of this unit .

PPPoE settings vary depending on the Internet connection

environment, so please contact your Internet service provider for Make settings details.

#### STEP 2 "Confirm IP address"

Check how to set the IP address.

If the IP address to be used is specified by the provider, Select "Do not set automatically".

If the IP address is automatically assigned when you connect to the Internet, or if the IP address is automatically assigned by your router If you can, select "Set automatically".

Contact your provider for more information about IP addresses please

When "Set automatically" is selected

An IP address is automatically assigned.

When "Do not set automatically" is selected

Set the IP address, netmask, default router, etc. A screen will appear as shown below.

Items to be set

•IP address: Enter the IP address specified by your provider. please.

- •Netmask: Enter the value specified by your provider. Depending on the provider, it may be called by a name other than netmask. Please contact your provider for details.
- •Default router: Enter the value specified by your provider. Depending on the provider, it may be called by a name other than the default router. Please contact your provider for details.

#### STEP 3 "Confirm DNS"

Check how the DNS is set.

If the DNS address to be used is specified by the provider If so, select "Do not set automatically".

If the DNS address is automatically assigned by your provider when you connect to the Internet, select "Set automatically". when.

For more information about DNS, contact your provider. please.

When "Set automatically" is selected

A DNS address is automatically assigned by your provider.

#### When "Do not set automatically" is selected

The screen for setting the DNS is displayed as follows.

Items to be set

•Primary DNS: Enter the primary DNS provided by your provider.

•Secondary DNS: Enter the secondary DNS specified by your provider .

#### To enter double-byte numbers

Use <, Mm to select on the keyboard the press to enter double-byte text.

You can choose letters.

全半 Select to return to half-width.

#### Symbol input keyboard

Press the L1 button on the remote control to display the following keyboard.

# To connect a keyboard and enter characters

By connecting a "PlayStation 2" compatible keyboard to this unit using the USB port, you can enter text without using the on-screen keyboard.

#### Step1

Connect a keyboard.

Connect as shown in the diagram below.

#### Step2

Make keyboard settings.

Make keyboard settings and character input settings as necessary. How to set For details, refer to "Setting the keyboard" (111 page) and "Setting character input" (page 109). page).

#### How to save files to CD-R

The only music (MP3), photo, and video files that can be played on this unit are CD-Rs saved using the following method. Files saved in any other way cannot be played.

#### Creating and saving folders and files

Create a folder directly under the CD-R (root) and save the music, photo and video files in that folder.

CD-R 1st layer (immediately below CD-R) 2nd layer

Precautions when creating and saving folders and files

- •Files written directly under the CD-R (root) are not recognized by this unit (1 below).
- Do not create folders within folders

(Figure 2 below).

CD-R 1st layer (immediately below CD-R) 2nd layer 3rd layer

- Do not create more than 40 folders on one CD-R.
- •Save more than 100 MP3 files in one folder please don't
- •Do not put more than 201 photo or video files in one folder.

Precautions when naming folders and files

•Set the file name within 64 characters.

- •Do not use single-byte characters such as "<", ">", "|", """, ", "\"", "\"", ",", "?", "¥", ",". Do not use
- File names and folder names may not be displayed correctly if they do not conform to ISO9660 Level 1, Level 2, Extended Format (Joliet).
- When naming the file, add an extension at the end of the file that matches the contents of the file. File extensions should be either ".JPG", ".GIF", ".MPG", ".TIF" or ".mp3".

others

#### How to save files to CD-R (continued)

- •The extension for JPEG image files is ".JPG", the extension for TIFF image files is ".TIF", the extension for GIF image files is ".GIF", and the extension for MPEG1 video files is ".JPG". .MPG ". If you play a file whose extension and file contents do not match, the operation of this unit will become unstable.
- •If you add the extension ".mp3" to a file other than MP3 format, the file may be played back, which may cause noise or malfunction.
- •ID3 tags are only compatible with Version 1.0.
- If there is an ID3 tag, the track name of the MP3 file on the CD-R will be displayed with reference to the ID3 tag information, but there is a limit to the number of characters.
- •The track names of MP3 files imported to the HDD are display the file name, but the number of characters is limited.

Precautions when writing to a CD-R on a computer

#### •Be sure to use a CD-R.

•Be sure to write with "Disc at once".

- Do not write to a CD-R that has already been written.

•Depending on the state of the disc, it may not be possible to play it.

•Discs recorded in multisession cannot be played.

•CD-RW is not supported.

•Packet light is not supported.

#### Formats supported by this unit

CD-R file system file name characte	r limit
ISO9660 Level 1	8.3 Form
ISO9660 Level 2	Maximum 31 characters (including extension)
Extended format (Joliet only) Max 64 ch	aracters (including extension)

<sup>9</sup> Folders are only supported up to one level.

#### Standards for writing to CD-Rs supported by this unit

project	MPEG1	MPEG2
	Layer3	Compatible
Write mode	with mode 1 and	mode 2 (Form1)
Compression method (sampling rate)	48KHz, 44.1KHz, 32KHz	24KHz, 22.05KHz, 16KHz

# How to save still pictures and video files to a "Memory Stick"

If you want to display the photos and movies saved on the "Memory Stick", save the photos and movies on the "Memory Stick" in the following format (DCF\* format).

If it is not saved in DCF format, it cannot be played on this unit. Some Sony-manufactured "Cyber-shot" digital still cameras cannot save images in DCF format. It will be playable.

- \* An abbreviation for "Design rule for Camera File system," a unified standard established by the Japan Electronics and Information Technology Industries Association (JEITA).
- \* When using a "Memory Stick Duo," be sure to insert the "Memory Stick Duo" adapter (sold separately).

#### Where to save the file Save the image file in

the 3rd layer as shown in the figure below.

stomach. (Figure 3 below)

•Create a folder in the first layer directly under the "Memory Stick" (root) .

(Figure 1 above)

•Be sure to create the second-level folder (folder for saving photos and videos) directly under the "DCIM" folder. (Figure 2 above)

#### About how to name files and folders•Always name

the first-level folder "DCIM" in single-byte capital letters. Please put the front on.

•The folder name of the second layer is 3 single-byte alphanumeric characters + single-byte alpha. Bet 5 characters, total 8 characters.

Example) "101MSDCF"

•The file name, excluding the extension, must be 8 characters in total, 4 single-byte alphanumeric characters + 4 single-byte numeric characters. Depending on the content of the file , add either ".JPG", ".GIF", ".MPG" or ".TIF" as the extension . If you play a file whose extension and file contents do not match, the operation of this unit will become unstable.

ÿÿÿMOV00399.MPGÿ

ÿDSC00001.JPGÿ ÿDSC00002.TIFÿ ÿCLP00003.GIFÿ

#### About "Memory Stick"

The separately sold "Memory Stick" is a compact, lightweight IC recording medium with a larger capacity than a floppy disk. When using a "Memory Stick" with your camcorder, also refer to the operating instructions of the device that recorded and edited the images on the "Memory Stick".

This unit supports the following "Memory Stick".

Types of "Memory Stick" "Memory	logo
Stick" (including those with memory select function)	MEMORY STICK
"Memory Stick PRO"	MEMORY STICK PRO
"MagicGate Memory Stick"	Μλαις βλτε
"Memory Stick Duo"*	Мемоку Stick Duo

\* When using a "Memory Stick Duo," be sure to insert the "Memory Stick Duo" adapter (sold separately).

To avoid erasing recorded music, photos, etc.

#### Still image and movie files may be destroyed in

**the following** cases. Please note that we cannot guarantee the contents of data recorded on a "Memory Stick" if they are destroyed. It is recommended that you back up important data.

•When the "Memory Stick" is removed or the power cord is unplugged while still image/movie files are being read (while the access lamp is lit).

•When used in a location subject to static electricity or electrical noise

#### About copyright

Third-party copyrighted works such as still images, movies, and music recorded with this unit is for personal enjoyment only.

Please note that it cannot be used without permission.

#### **Guarantee of recorded contents**

Contents that were not recorded due to a problem while using this unit Please forgive me for the warranty.

Slide the accidental erasure prevention switch to

"LOCK".

#### Is it a malfunction? If you think

Please check again before sending for repair. If it still does not work properly, contact the store where you purchased the product or the Customer Service Center (back cover). When consulting with us, please let us know the following:

#### Warranty and after-sales service

This machine is for use in Japan only. It cannot be used overseas where the power supply voltage and broadcasting standards are different.

#### warranty

ÿ This product comes with a warranty card.

Please pick it up at the store where you purchased it.

- ÿ After filling in the specified items and checking the content, Please save.
- $\ddot{\mathbf{y}}$  The warranty period is one year from the date of purchase.

#### After-sales service

If you feel unwell, first check and consult

Refer to the section "Troubleshooting" to check whether the product is malfunctioning. Please check. If the

symptoms do not improve, contact the Customer Service Center (back cover). Please contact

#### About repair (hard disk)

 During repairs and inspections, the data on the hard disk may be checked to the minimum extent necessary to confirm the occurrence and improvement of malfunction symptoms. However, we do not duplicate or save files such as titles.

•If the hard disk needs to be initialized or replaced, We will initialize at our discretion. Please note that all data recorded

on the hard disk will be erased (including cases where data corresponding to copyrighted works is found).

#### Repairs during the warranty period

We will repair it based on the contents of the warranty. Please see the warranty for details.

Repair after the warranty period has expired I will understand.

#### We cannot guarantee the quality of

the recorded content. If recording/editing is not possible for any reason, including defects, failures, repairs, replacements, and other external factors, or if the recorded/edited material is damaged or lost, In any case, the Company will not be held responsible for any compensation for the recorded contents or any damages that accompany it.

#### Retention period of parts We

stock repair performance parts (parts necessary to maintain the functionality of the product) for hard disk DVD recorders for at least 8 years after production is discontinued. This parts retention period is the period during which repairs are possible. Even after the holding period has passed, repairs may still be possible depending on the part of the problem, so please contact the store where you purchased the watch or the Customer Service Center (back cover).

#### Replacing parts When

repairing this product, parts replaced may be recycled or reused. In that case, we will collect the replaced parts.

When consulting with us, please let us know the following: - Model name: DESR-7100/DESR-5100 - Disc type: DVD video, DVD-RW, DVD-R, etc. - Connected antenna: VHF/UHF, VHF/UHF/BS mixed,

#### software license agreement

This agreement sets forth the terms and conditions regarding the licensing of the right to use the following software (hereinafter referred to as "licensed software") between the customer (hereinafter referred to as "customer") and Sony Corporation (hereinafter referred to as "Sony").

#### Licensed software [PSX® upgrade software ver.1.30]

#### Article 1 (General

Provisions) The Licensed Software is protected by the copyright laws of Japan and other countries, treaties on the rights of authors and related rights, and other intellectual property laws. The Licensed Software is licensed to you by Sony in accordance with the terms of this Agreement, and the copyright and other intellectual property rights of the Licensed Software are transferred to you. I will not.

#### Article 2 (Usage

Rights) 1. Sony grants you a non-exclusive right to use the Licensed Software.

2. The right to use the licensed software arising from this agreement shall mean that the customer can access the licensed software from the Internet or media distributed or purchased by the customer from Sony PSX® owned by the customer (hereinafter referred to as the product). ) means the right to download one copy per device and use it on the relevant product. 3. The customer may not reproduce, duplicate, modify, add or otherwise modify all or part of the Licensed Software.

#### Article 3 (Restrictions on

Rights) 1. The customer shall not sublicense, lend, lease, or allow any third party to use the Licensed Software. 2. Licensed software is licensed as a single piece of software on the condition that it is used in this product. You may not separate all or part of the Licensed Software or its component parts for use in more than one product. 3. You shall not use the Licensed Software to infringe the copyrights or other rights of Sony or any third party. 4. The customer shall not perform source code analysis work such as reverse engineering, disassembling, decompiling, etc. regarding the licensed software.

Article 4 (Rights of Licensed

Software) All rights, including copyrights, relating to the Licensed Software shall belong to Sony or the original right holder (hereinafter referred to as the The customer shall have no rights other than the license granted under Article 2 of this agreement with respect to the licensed software.

#### Article 5 (Scope of

Liability) 1. Sony does not warrant that the Licensed Software will be free of errors, bugs or other defects, or that the Licensed Software will operate without interruption. provided, however, that in order to deal with such errors, bugs and other defects, Sony shall repair the Licensed Software by providing software that rewrites a part of the Licensed Software or provide version upgrades, replace the Licensed Software by mail, or replace the Licensed Software with other companies. We may notify you of the point of contact for inquiries regarding software manufactured by us. The method of providing the software and version upgrades specified in this section shall be determined by Sony at its discretion. Unless otherwise specified, the provisions of this Agreement shall also apply to such repaired or upgraded software. 2.Sony does not guarantee that Sony or the original right holder does not infringe the intellectual property rights of third parties in relation to the Licensed Software. There is none.

3. Sony shall not be liable for any damages incurred by the customer or any third party as a result of the customer exercising the license granted under this Agreement. 4. Sony does not guarantee the commencement or continuation of services provided by Sony or third parties in connection with the Licensed Software. 5. In any event, Sony's liability for damages to the customer shall be limited to the purchase price of the product as evidenced by the customer. 6. The licensed software includes software called

"PlayStation® BB Navigator" for accessing "PlayStation® BB". Please note that in some cases, you may be required to agree to the terms of use or enter into a license agreement separately with the service provider or copyright holder. First of all , please read the terms of use in the "PlayStation®BB" info.

#### Article 6 (Termination of

5. Based on this agreement, the customer may transfer all of the rights related to the customer's licensed software only together with this product. However, in such a case, the customer may not own a copy of the licensed software, and shall retain all of the licensed software (including all components, media, related documents such as manuals, electronic documents, and this agreement). The transfer is conditioned on the transferee's acceptance of the terms of this Agreement.

Agreement) 1. Sony may immediately terminate this Agreement if you violate any provision of this Agreement. If you breach any provision of this Agreement and Sony sends you a notice of termination of this Agreement, this Agreement will terminate on the date Sony becomes aware that you have breached any provision of this Agreement. shall be terminated (hereinafter referred to as the contract termination date). 2. If this Agreement is terminated pursuant to the provisions of the preceding paragraph, the customer shall stop using the Licensed Software within two weeks from the termination date of the agreement . In addition, if requested by Sony, the customer shall send the product to a location designated by Sony so that Sony can remove the licensed software from the product, and Sony will promptly return the product to the customer after removal, shall be

others

#### Software License Agreement (continued)

#### Article 7 (Others)

1. This Agreement shall be governed by the laws of Japan.

2. When the customer takes the licensed software out of Japan and uses it,

in compliance with applicable national and international export control regulations, laws and orders will do. In addition, if the customer installs the licensed software on this product from the Internet, The act of downloading must be

Licensed software is exported outside the United States from Loop's servers and exported to Japan. It may fall under the act of importing into the country. licensed software

Do not include cryptographic technology subject to the U.S. Export Administration Regulations. Therefore, you must comply with the provisions of the U.S. Export Administration Regulations and Countries where the US government prohibits the export of software (Cuba, Iraq, Brazil, Sudan, North Korea, Iran, Syria)

from Japan to individuals and groups that the United States prohibits transactions Please note that it cannot be exported.

This Agreement is based on consumer protection laws and regulations, including the Consumer Contract Act.
 It does not change your rights to any disadvantage.

4. Even if some provisions of this agreement are invalid by law,

All other provisions shall remain in full force and effect.

If there is any doubt regarding matters not stipulated in this Agreement or the interpretation of this Agreement, shall be resolved through consultation between the customer and Sony in good faith. will do.

About the G guide system

GG

radio wave condition.

not involved in

station (host station).

I will.

The G guide system is adopted for the program table function of this machine.

In the G-GUIDE system, a specific broadcasting station (host station) distributes

program guide data using terrestrial television broadcasting. This unit receives the program guide data several times a day and displays it on the TV screen. If

you live in an area where you can receive broadcasts from the host station, you

can use this program information service free of charge by simply performing a

simple setting . The mark is displayed when using G-GUIDE program information.

 $\ddot{\boldsymbol{y}}$  The service may not be available depending on the area where you live or the

#### glossary

#### Antenna level (page 95)

The strength of the radio waves coming from the antenna vinegar. It is affected by the weather, temperature, time of day, and the length of the antenna connection cable. increase

#### One frame of interlaced video

(page 26) is split between two frames. This is a method of displaying half by half in the This is how TV will be displayed in the future. Alternates odd-numbered lines in odd fields and even-numbered lines in even field copy control signal (page

It is designed to show

Guide channel (pages 94, 136) An identification number assigned to each broadcasting station by Gemstar.

#### A standard for

recording write mode CD-ROMs.

#### extension

A character that indicates the file type column. For MP3 files, the file Add a "." after the file name and add the extension "mp3".

Example) ongaku.mp3 filename extension dot

#### Clip Motion One of

the GIF format images that Cyber-shot can handle. Multiple images in one file Combine GIF format images to display moving images like flipbooks. You can

#### Cable television (CATV) (page 110) Cable

broadcasting that provides programs by connecting subscribers and broadcasting stations directly with a cable. Terrestrial Analog TV programs, terrestrial digital, A song break, smaller than the title In addition to BS analog, you can watch specialized channels for sports and movies, local information programs and teletext.

#### Ghost (page 94) Radio

waves from a broadcasting station are received twice or three times before they reach the TV antenna due to interference caused by buildings and topography. As a result, the image of the jamming signal appears superimposed on the correctly transmitted image, making the screen difficult to see. Dolby Digital (page 101)

increase

9) Copy protection function. You cannot record software or broadcast programs that contain signals for restricting duplication by copyright holders.

Viewing age limit (page 102)

According to the regulatory level of each country/region, Discs compatible with viewing age restrictions A DVD function that restricts playback. limit How to play depends on the DVD. If you do not want to play or skip extreme scenes to replace it with another scene and play it back. There are cases.

#### Receive channel (page 94)

Channel used when this unit receives a broadcast station Nell. Usually in the TV section of newspapers and magazines Same as the number of each broadcasting station listed is. You can perform the simple settings on this unit. is set when

#### Splitter (page 113)

Voice calls mixed on telephone lines and Used to divide ADSL information into two To do. Uses ADSL over voice calls ADSL It allows you to separate information.

Chapter (62 pages) Images recorded on the HDD or DVD, Units. one title is several It consists of chapters. Cha Some titles with no printer recorded I have.

#### Default router on page 117 Use different methods on the network It is a mechanism that enables connection between devices that are

connected to each other

Sound developed by Dolby Laboratories voice compression technology. multi-channel Suitable for rounds. rear chan channel becomes stereo, subwoofer Channels output independently. high Multi-channel standard digital audio You can enjoy it in

#### Netmask (page 117)

Part of the IP address that identifies the subnet. It is the one that determines

#### Hard disk (page 8)

A type of mass data storage device. surface A flat disk (disc (c) and bring the magnetic head close to it.

and record the data. magnetic di

Because the disk and the drive mechanism are integrated, read and write data very fast

can be used for immediate data retrievability is included

#### packet light

When writing data to a CD-R, the data data is divided into units called packets. It is a recording method that writes

#### **Bitrate Indicates**

how much information is stored in one second. is an indicator. The larger the number, the more unit time Since there is a large amount of information in the interval, the sound quality is also improved

Progressive (page 101) A

method of displaying 1 frame as a single image, as opposed to the interlaced method, which displays 1 frame in 2 field images . In contrast to the conventional interlace format , which consists of 30 frames (60 fields) per second, by using 60 frames per second from the beginning , high-quality images can be reproduced.

Broadband (page 112) A general term for lines that can send and receive large amounts of video and audio data at high speed using a wide frequency band. Currently, what is called broadband includes ADSL, CATV, Internet, FTTH, etc.

Broadband router (page 113) Internet access via ADSL or CATV When connecting to the Internet, devices such as ADSL modems and cable modems are used, but when connecting to the Internet from multiple terminals, a device called a broadband router is used.

Provider (on page 112) "Internet service provider (ISP)". A business that provides Internet connection services.

#### ma line ya line

#### multi session

Write multiple sessions on a single CD-R It's a way of getting in. track at one Multi-set CD-Rs that have been written with a will be an option.

# "Memory Stick" (page 125) Small and light, like a floppy disk It is an IC recording media with a large capacity. Do not use a "Memory Stick" with this unit. You can play back photos by pressing

#### User ID (page 116)

Used when connecting to a network. In combination with the password, Confirm that you are the user.

#### a line Wa line.

Router (page 112)

A device that relays between networks and mutual network protocol and address translation. ADSL and a broadband router for connecting to

the CATV Internet.

When referred to simply as a "router", these Sometimes I point the equipment.

#### ABC

#### ATRAC3 (page 75)

Music compression used in minidiscs Based on the format "Atrac", the compression ratio A compression standard designed to improve sound quality.

#### CD-R

A standard for writable CDs. on this machine can store photos and music written to a CD-R. Only reading files is supported.

vnegar.

#### DEF

D terminal (page 143)

This is a component video terminal compatible with DVD players. You can easily send video signals by connecting this unit and a TV with a single cable. You can enjoy higher quality images than when you connect to a TV with the video output

terminal because you can connect with component bigendards. start.

The following types of D connectors are available depending on the supported signal format.

- •D1 terminal: Supports 525i (480i) signals
- •D2 terminal: 525i (480i) and 525p (480p) for signals of
- •D3 terminal: Supports 525i (480i), 525p (480p) and 1125i (1080i) signals
- •D4 terminal: Supports 525i (480i), 525p (480p), 1125i (1080i), and 750p (720p) signals

This unit supports D1/D2 terminals.

i stands for interlaced and p for progressive .

#### DCF

Abbreviation for Design rule for Camera File system . Image format for digital cameras Matt.

#### Disc at once

This is one method of writing to a CD-R. A way to write all the data at once . Only CD-Rs written using this method can be played on this unit.

DNS (page 117) Also called "primary DNS," "domain name server," or "DNS server."

vinegar. Identify by IP address with a server that has a function to replace domain names with IP addresses It has been.

#### DTS (page 101)

Digital audio compression technology developed by Digital Theater Systems. Compatible with multi-channel surround is. The rear channels will be stereo and the subwoofer channel will be output independently. Enjoy high-quality digital audio in multi-channel can do.

DVD+RW [DVD+RW] One of the rewritable

Compared to DVD-RW, the compatibility with DVD-ROM Highly compatible.

#### GH

#### GB [gigabyte] (page 107)

A unit that expresses the capacity of an HDD or DVD. The larger the number, the larger the capacity. 1GB is about 1000MB (megabytes).

#### GIF

It is one of the image file formats. on this machine cannot play or import images in GIF format. I can do it.

#### Glossary (continued)

#### IJKL

ID3 tag [ID3 tag ] Adding titles and art to MP3 files

A convention for adding information such as the name of the It's class.

IP address [IP address] (117 page) Used in TCP/IP (Transmission Control Protocol/ Internet Protocol) networks identification information.

It is usually four sets of three digits separated by dots . (e.g. 192.168.239.1)

ISO9660 [ ISO9660 ] CD-ROM logical file format It is a standard for

Joliet CD-ROM logical file format It is a standard for

#### LPCM (page 97)

Convert analog audio to digital audio method. "Linear pulse code Modulation (Linear Pulse Code Abbreviation for "Modulation", easy digital You can enjoy the audio.

#### A LOT

MAC address [MAC address] ( page 107) Abbreviation for Media Access Control.

Identify devices connected on the LAN This number is assigned to each device for to the cable TV company Therefore, it is necessary to notify the machine of the MAC address. exit may be required. of this machine You can check the MAC address in " Information

display" (page 107) in "Main unit settings" .

MagicGate (page 135) Encryption technology to protect the copyright of digital music content.

#### MPEG [Empeg] (page 132)

Abbreviation for Moving Picture Experts Group . An international standard for compressing video data.

#### MPEG1 [Empeg 1] One of

the video data compression methods. You can play back movies with the image quality of a VHS video . You can

#### MPEG1 Audio Layer3 An

audio compression method used in MP3, An audio standard standardized by MPEG1.

MPEG2 Audio Layer3 An audio compression method used in MP3, An audio standard standardized by MPEG2.

#### MP3 [MP3]

One of the music formats, MPEG An audio compression standard standardized by Despite the high compression ratio, the high sound quality can be preserved. This unit can play MP3 files created on a computer, etc. or save it to your hard disk. you can enter.

mp3PRO [MP3 Pro]

An original extension standard for MP3

m3u It is one of the play list file formats.

#### PQRSTUVWXYZ

PPPoE (116 page) Point-to-Point Protocol over Abbreviation for Ethernet . ADSL or FTTH The protocol used when connecting to the Internet using the .

#### TIFF This is

one of the image file formats. With this unit, you can play back TIFF files saved with a digital camera, or save them to the hard disk. You can take it in.

#### VBR [VBR] A function that

automatically adjusts the amount of song data to keep the file size to the minimum necessary without degrading the sound quality.

#### umber

#### 8.3 Form

A standard that defines the format of file names. For 8.3 format, the file name is half-width 8 characters or less, extension 3 characters or less to set.
